## Governing sustainability of bioenergy, biomaterial and bioproduct supply chains from forest and agricultural landscapes

---

Copenhagen, 17- 19 April, 2018

Sustainability impacts of biomass production

Policies and governance systems to assure sustainability of bio-based supply chains

Data and methodologies to verify sustainable practices

Stakeholder perceptions and engagement in relation to sustainability governance

The conference is arranged by the following research networks:

- IEA Bioenergy Task 43 “Biomass feedstocks for bioenergy markets”
- SNS-NKJ network activity “Effect of bioenergy production from forests and agriculture on ecosystem services in the Nordic and Baltic landscapes”
- CAR-ES III “Centre of Advanced Research on Environmental Services from Nordic Forest Ecosystems”.
