

INVITATION TO OPEN LECTURE AND DISCUSSION WITH CLAUDIA CASSATELLA

Monday September 12th 2022 at 16.00 - 18.00
Frederiksberg

PLANNING CHALLENGES FOR GREEN INFRASTRUCTURE IN METROPOLITAN REGIONS – AN ITALIAN PERSPECTIVE

ABSTRACT

The metropolitan area of Turin was one corner of the “industrial triangle” of Northern Italy in the past Century. The post-industrial transition involved an explicit strategy of environmental and landscape requalification. The green and blue infrastructure of Turin is the result of 25 years of plans and projects, guided by a clear landscape vision, and a collaborative multilevel governance system. The lecture will illustrate planning mechanisms and outcomes at the local and the regional scale, and recent challenges in the management of such a supra-local system.

BIO

Claudia Cassatella is Associate Professor in Urban and Landscape Planning at Politecnico di Torino and Head of the Faculty of Planning and Design. Her research deals with landscape planning and landscape heritage. She is scientific manager for applied research for public authorities and H2020 projects. She has lectured internationally in EU, US and JPN. Past Member of the Executive Board of the Italian Society of Urban Planners (SIU) and of UNISCAPE.

EVERYONE IS WELCOME

The event is free, but we recommend that you sign up via <https://science.nemtilmeld.dk/1433/>

Registration no later than
Thursday September 8

PROGRAM

16.00 Lecture by Claudia Casatella
16.45 Debate introduced by prof. Henrik Vejre
18.00 Farewell

Drinks and snacks will be available
during the debate

PLACE

Department of Geosciences and
Natural Resource Management
